

Release Notes

Changes in v11.0.4

Released January 2, 2023

ID	Function	Description
CORE-2445	Map	11.0 Only - Fixed: In the three-panel search's map, after modifying a map shape, the "drag handles" to modify it again remained at the prior border position, not on the new one
CORE-2458	Map	11.0 Only - Fixed: When multiple boundary layers are enabled and the user clicks the map to select a layer's area and generate a search polygon, then selects which layer/area they meant in the 'Did you mean' popup, the map would refresh with no shape or layer selected.
CORE-2460	Map	11.0 Only - Fixed: In the three-panel search's map, when loading a prior search which had over 500 results and included a map shape in its criteria, the map shape would not render
CORE-2492	Map	11.0 Only - Fixed: The ability to select a map overlay's area as a search polygon was no longer available in the pop-up map used for to draw map search criteria for Hot Sheets and some other searches
CORE-1541	Media	11.0 Only - Added pinch and zoom capability to the single photo view in the new three-panel search
CORE-2479	Media	KEY NEW FEATURE – Integration with Restb.ai now supports autofilling listing image descriptions at the time of upload. <i>See full details in the Autofill Image Descriptions section above.</i>
CORE-2436	Search	11.0 Only - Fixed: An error would occur running a Market Update for a saved search created in the new three-panel search
CORE-2455	Search	OneHome Only - The "Share Link" option is now available on the listing full display and other non-grid displays
