

Examples of current **Approved** Lockbox Systems by the BSC MLS Board of Directors:

- BSCMLS Supra Lockbox on the property
- SentiLock Lockbox on the property
- Listing agent to accompany at showing
- Coded key system at listing office (coded key system means the key cannot be attached to the listing address in any way i.e. on a key ring, etc.)

Examples of current **Unapproved** Lockbox Systems by the BSC MLS Board of Directors:

- Key in the mailbox, under the doormat, etc.
- Currently any lockbox (combination, coded, etc.) other than a BSCMLS Supra lockbox or SentiLock Lockbox
- Door left unlocked

If possible, the participant or subscriber shall ensure the MLS approved lockbox is physically attached to the property (door handle, fence post, etc.) If it is not reasonably possible to physically attach the lockbox to the property, the participant or subscriber may leave the lockbox unattached.
